Welcome to the Aldershot 2025 'Summer Programme'. AWS, Community Support have worked tirelessly over the past few months to put together a program reflecting the ideas and suggestions of our community and secured the funding for the summer activities. AWS would not have been able to accomplish this without the support of our incredible funders as well our amazing volunteers.

Please note the Junior and Senior Residentials are not included in this brochure as we release those dates early to support families wishing to book holidays following feedback from previous summer activities.

Every activity has an individual QR code so please scan and complete the form for each activity that you wish to book.

All service families and young people are welcome to access any location within this brochure irrespective of where you are living.

In addition to the booking form, we do require all our participants to hold an annual registration if you have not yet completed one for

2025 please scan the QR code before booking any events.
