

CHRISTMAS TREES FROM TINCLETON TIME TO ORDER

Dear Valued Customer,

I am very pleased to share some good news with you. Tincleton trees was selected to plant trees for the Queens Canopy by a London Livery Company. As it coincided with the platinum anniversary, 70 trees were considered to be an appropriate number. A mixture of British broadleaves was planted in an area previously infested with rhododendron ponticum. In spite of the drought we nursed them through the hot, dry spring and suffered only 6 casualties. Such was the success of this venture that another company has joined in on a nearby ex-rhododendron infested plot, so I am proud to have the pleasure of 140 trees officially registered to the Queen's canopy. This is of course in addition to trees kindly sponsored by a considerable number of our customers for loved ones or simply for love of trees. It is a joy to welcome visitors to their special trees which are growing fast now they have become established.

An order form for Christmas trees is printed overleaf as usual. There is no need to send this to me as long as you ensure I have the necessary information by post or email. Payment straight to the bank is preferable as cheques have a habit of going astray in all the excitement of Christmas festivities and making sure that all the trees are delivered in time.

Please feel free to call me if you want to discuss your tree or delivery arrangements.

This year we have a few tons of hardwood fire logs available from trees which fell in a storm 3 years ago. These have been split, air dried and stored ready for Christmas. The price per cubic metre of loose logs is £100 delivered free locally.

For customers affiliated to a partner school or church we are pleased to offer 10% of the proceeds to the organisation where our trees have been advertised.

With kindest regards and best wishes for a truly joyful Christmas,
Pauline Bennetts
